ANTI - WRINKLE ACTIVE

Our *SeaPlex Anti-Wrinkle Complex* includes an alternate to Retinal or Vitamin C, effective in reducing age lines. Includes Grapeseed Extract as an anti-oxidant and free radical reducer for damaged or stressed skin. Wild Mushroom Extract acts as an astringent with a firming action, including Japanese Green Tea, Cucumber Extract, Chamomile and Wheat Protein. This complex is simply phenomenal!

ANTI - AGE ACTIVE

Our *SeaPlex Anti-Age Complex* combines the base elements of our Superior *SeaPlex Anti-Wrinkle Complex* (having slightly less Lipopeptides) and the inclusion of 3 other ingredients; Soy Extract, Wild Yam and Gaurana. This is a more mature skin blend and includes effective anti-aging ingredients.

ABOUT PEPTIDES

A study in France used profilometry (image analysis of the skin) to measure one of the primary ingredients in our *SeaPlex Anti-Wrinkle Complex*. Unlike Retinol or Vitamin C, which can induce irritations and skin hyper reactivity, Lipopeptides help stimulate the cellular matrix that leads to the synthesis of collagen I and IV, fibronectine and glycosaminoglycans leading to wrinkle reduction and wound healing.

The study findings were statistically significant, saying treatment with Lipopeptides saw:

- 50% decrease in wrinkle depth
- 68% decrease in wrinkle density
- 24% decrease in wrinkle volume

Lipopeptides were also associated with increases in elastin fiber density and thickness and improved regularity of Collagen IV, both critical for smooth, supple skin. **Matrixyl™** is the trademark name for Palmitoyl Pentapeptide-3, our active ingredient and one of the powerful peptide molecules found in the latest generation of **high-end anti wrinkle skin care products**. This breakthrough ingredient stimulates collagen production in the skin and can even give BOTOX® injections a run for their money in the anti-wrinkle department. **Matrixyl™** becomes even more effective when combined with other peptides.
